Book Direct and Bundle Your Fee

Booking direct can be advantageous to your bottom line. All affiliates have the option to set up a separate account to book clients. Here you are able to bundle your fee with other services you are providing. You book at a lower rate which allows you to adjust your commission. You get the same services as the book button and can turn off the price field. All confirmation emails will exclude the price. Your client never sees what you paid unless you want them to.
